

20000mah lithium polymer battery

Overview

What is a 20000 mAh battery?

With a capacity of 20000mAh, the battery offers sufficient power to recharge both laptops and smartphones, while also providing sustained energy for battery-operated tools to perform long-lasting work.

What is a 2000mAh lithium ion battery?

A 2000mAh lithium ion battery is supplied as standard to provide excellent performance throughout a working shift.

What is a 1000 mAh lithium ion polymer battery?

This is a tiny rechargeable Lithium-ion polymer battery to power your projects. The battery has a capacity of 1000mAh at 3.7V, the voltage can range from 4.2V when fully charged to 3.0V when completely discharged. The battery includes protection circuitry to protect the battery from overcharging or completely discharging.

How much power does a 20000mah battery have?

20000mAh (77Wh at 3.85V) sufficient power for smart phones, laptops, tablets, portable game console, with 2 slots QC USB-A output & 2 slots QC USB-C input and 45W max output power, while the low current mode is available. Ultra compact (27% lighter and 57% smaller than conventional power banks). Dimensions:.

What is a high-density lithium-ion polymer battery?

The high-density lithium-ion polymer battery provides lasting and reliable battery life for devices such as phones, tablets and digital cameras, so you can recharge wherever you are — in the office or on the go.

What is the power bank 20000 mAh 18W fast charging?

A smart power bank that ensures more efficient charging and saves you valuable time. The Redmi Power Bank 20000 mAh 18W Fast Charging has two USB-A output ports, each with a maximum power of 18W when used alone. The combined output of the two ports can reach 5.1V/3.6A, satisfying the charging needs of both phones and tablets.
