

2009 stimulus bill renewable energy companies

Overview

The American Recovery and Reinvestment Act of 2009 (ARRA) (Pub. L. 111-5 (text) (PDF)), nicknamed the Recovery Act, was a stimulus package enacted by the 111th U.S. Congress and signed into law by President Barack Obama in February 2009. Developed in response to the Great Recession, the primary.

Both the House and the Senate versions of the bills were primarily written by congressional committee leaders and their staffs. Because work on the bills started before.

ARRA included a 'Buy American' provision, which imposed a general requirement that any public building or public works project funded by the new stimulus package.

Economists such as , , National Economic Council director , and winners and favored a larger economic stimulus to counter the.

A May 21, 2009, article in stated, "To build support for the stimulus package, President Obama vowed unprecedented.

listed the basic intent behind crafting the law. This included the following:1. To.

The CBO estimated ARRA would positively impact GDP and employment. It projected an increase in the GDP of between 1.4 percent and 3.8 percent by the end of 2009, between 1.1 percent and 3.3 percent by the end of 2010, between 0.4 percent and 1.3.

The Congressional Budget Office reported in October 2009 the reasons for the changes in the 2008 and 2009 deficits, which were approximately \$460 billion and \$1.41 trillion, respectively.

**Efficient
Higher Revenue**

- Max. Efficiency 97.5%
- Max. PV Input Voltage 600V
- 50% Peak Output Power
- 2MPP Trackers, 150% DC Input Overvoltage
- Max. PV Input Current 15A, Compatible with High Power Modules

**Intelligent
Simple O&M**

- IP65 Protection Degree: support outdoor installation
- Smart ITC Curve Diagnosis Function: locate PV string faults accurately and automatically detect faults
- DC & AC Type II SPD: prevent lightning damage
- Battery Reverse Connection Protection

**Flexible
Abundant Configuration**

- Plug & Play, EPS Switching Under 10ms
- Compatible with Lead Acid and Lithium Batteries
- Max. 6 Units Inverters Parallel
- AFCI Function (Optional): when an arc fault is detected the inverter immediately stops operation
