

2013 elantra remote keyless entry system power door locks

ESS

Overview

How does the remote keyless system work in Hyundai Elantra?

The remote keyless system in Hyundai Elantra allows the driver to conveniently lock and unlock the vehicle with the press of a button. When the key fob stops working, it quickly becomes an inconvenience to manually lock and unlock the vehicle.

Why is my Elantra remote key not working?

In rare cases, the remote key of Elantra may stop working due to pairing issues. The key can be reprogrammed with an OBDII scanner. You may also be able to program a key by following a few steps, an original key is typically required for successful pairing. The instructions should be mentioned in the owners manual.

Why is my Elantra key fob not locking?

Dead coin battery is the leading cause of key fob not locking or unlocking the doors in Elantra. Usually there are signs of weakening battery before it gives up. If the remote was working previously, but the range of the remote was gradually decreasing until it ceased to function, this indicates that the battery was wearing out.

When should I replace my 2013 Hyundai Elantra key fob?

If you begin to notice signs like reduced response range or inconsistent operation, it's time for a replacement. AutoZone has you covered when you need a new 2013 Hyundai Elantra key fob. With our large selection from the leading brands, we have a keyless remote entry transmitter that will fit your vehicle.

How do I reprogramme my Hyundai keyless remote system?

The first step to take in reprogramming your Hyundai keyless remote system is entering the vehicle and closing all the doors. Second, use your key to

switch on the "ACC" accessory function on the Hyundai's ignition system. Third, you will notice a button on the key fob that says either "unlock" or "open."

Can a button cell battery damage the key fob of Elantra?

If the button cell battery in the key fob of Elantra is replaced incorrectly or a battery is unsuitable, it can damage the vehicle key. Only replace drained batteries with new batteries in the same voltage, size, and specification. Make sure the battery is facing in the right direction when inserting it.
