

# **2025 Photovoltaic Panel Initial Installation Cost**

## Overview

---

But the average solar panel system of 3.5kWp will cost around £7,000 to install, according to estimates from the Energy Saving Trust. What is included in a complete solar panel installation?

Please bear in mind that a complete solar panel installation does not simply include the costs of the solar panels themselves, but also includes the following: Solar panel brackets. Solar panel inverter. Solar panel brackets. Installation i.e. labour costs of the installer. Cost of the solar battery storage system (although this is optional).

How much does it cost to install a solar panel?

Typically, installation costs make up around 20% of the price you'll pay for a solar panel system, which works out at £1,400 for a three-bedroom house. The price quoted for installing a system usually includes any associated labour costs.

How much does a solar panel cost in the UK?

The average cost of a solar panel in the UK based on a 350-watt panel is currently between £500 and £800. However, please bear in mind that this is the price for a single solar panel and does not include the professional installation or any other extras e.g. pigeon proofing. With that said, let's explore some common solar installation scenarios.

How much does a solar PV installation cost per kilowatt?

The mean average cost per kilowatt of a small solar PV installation (0-4kW) is above £2,000 for the first time since these records began in 2013/14. Prices for larger solar installations (4-10kW) increased even more dramatically - by 31% since 2021/22.

How much does it cost to replace a solar inverter?

Most solar batteries have a lifespan of 10 to 15 years, so it's likely they'll need

replacing long before your solar panels. New solar batteries typically range from £1,000 to £5,000, although advanced or larger capacity models may cost more. Replacing a solar inverter costs between £900 and £1,500.

Are there incentives for solar panels in 2024?

Yes, several incentives are available to those installing solar panels in 2024, including a zero per cent VAT rate on solar installations, earnings from the SEG scheme for surplus energy fed back to the national grid and government grants, such as the ECO4 grant. When is it not worth buying solar panels?
