

31 series lithium battery

Overview

What is a lithium group 31 Battery?

Lithium Group 31s offer higher voltage for powering 24V and 36V components like trolling motors or RVs that require more output than conventional AGM models can supply. To make the most informed choice, let's compare the Group 31 batteries available on the market, discussing their features and advantages.

Are all group 31 batteries the same size?

According to the BCI, Group 31 batteries are 13 x 6.8125 x 9.4375 inches, but not all group 31 batteries are technically the same. For some reason, during the manufacturing process, each battery manufacturer will have a slightly different size when compared to the standard size above, but the difference is minimal.

How long does a lithium group 31 Battery last?

Exceptionally long lifespan of 8-10+ years with over 3,000 cycles, high quality lithium batteries like LiTime Group 31, has over 4000 cycles. In conclusion, each Group 31 battery type has its own advantages and considerations.

What is a BCI Group 31 Battery?

Group 31 batteries, as designated by the BCI Group label, have a specific set of dimensions at 13 x 6.8 x 9.44 inches (330x173x240 mm) and are suitable for other deep cycle applications like off-the-grid systems, marine use, and more.

What is the highest capacity Group 31 battery available?

Upgrade your battery to the Highest Capacity Group 31 Battery available. Ohmmu's newest Gen 4 battery stores 15% more energy than our previous Gen 3, for a total of 2.3kWh of energy capacity! Our Gen 4 Group 31 Deep Cycle Lithium 12V battery is a drop-in replacement to any lead acid battery

system in the popular group 31 form factor.

What is a Gen 4 Group 31 Battery?

Our Gen 4 Group 31 batteries are the highest capacity LiFePO4 group 31 batteries on the market and are perfect for any RV, camper van, boat trolling motor, or even solar energy storage system!

Full Guide to Group 31 Batteries: Dimensions, ...

In this comprehensive guide, we'll delve into everything you need to know about Group 31 batteries, including their dimensions, features, and types. By the end of this article, you'll be equipped with the knowledge to make an informed ...

A Guide To The 6 Main Types Of Lithium Batteries

What Is A Lithium Battery? Lithium batteries rely on lithium ions to store energy by creating an electrical potential difference between the negative and positive poles of the battery. An

insulating layer called a "separator" divides the two sides of the battery and blocks the electrons while still allowing the lithium ions to pass through.

PSL-SC-121250-G31 12.8V 125Ah Group 31 Lithium Battery

MODEL SUMMARY The PSL-SC-121250-G31 is part of our deep cycle lithium series and parallel connection range which can be connected in a series or parallel configuration allowing for higher voltage or higher capacity battery systems. The 12.8V 125.0Ah deep

Differences Between Deep Cycle Group 24 VS Group 31 Battery

Lithium batteries are typically more expensive than AGM or other types of lead-acid battery. However, LiTime provides best budget LiFePO4 lithium batteries, both the group 24 and group 31 batteries are below \$300. Considering its long-term using, upgrading the

The Full Comparison of Group 24 VS Group 31 Deep ...

Redodo's LiFePO4 lithium batteries in Group 24 and Group 31 sizes are designed to adhere to the widely used BCI battery size standard, making them direct replacements for old AGM batteries. Furthermore, Redodo ...

Deep Cycle Lithium Iron Marine Battery Group 31 ...

Our brand-new lineup of Lithium-Ion LiFePO4 Marine Batteries feature the only true dual marine posts available in a deep-cycle Lithium-Ion LiFePO4 marine battery. For the first time ever you can now purchase this lightweight, durable, ...
