

400 kw solar panel price

Overview

To give you some indication though, we believe that the "market price" for a 400kW solar system at the moment is between: \$460,000.00 (on the lower end - e.g. cheap Chinese) to. \$700,000.00 (on the higher end - e.g. tier 1 solar panels and a German inverter - such as SMA).How much does a 400 watt solar panel cost?

Today's premium monocrystalline solar panels typically cost between \$1 and \$1.50 per Watt, putting the price of a single 400-watt solar panel between \$400 and \$600, depending on how you buy it. Less efficient polycrystalline panels are typically cheaper at \$0.75 per watt, putting the price of a 400-watt panel at \$300.

How much does a 400kW Solar System cost?

The cost of 400kW solar power systems varies. On the lower end, you might expect to get Chinese inverters such as Sungrow, Growatt, JFY, Goodwe etc. and Chinese (lower-tier) panels such as Hannover, Munsterland, ZN Shine etc. You might expect to pay \$460,000.00 for such a system.

How do I find the best 400 kW solar system?

Compare price and performance of the Top Brands to find the best 400 kW solar system. Buy the lowest cost 400 kW solar kit with the latest, most powerful solar panels, inverters and mounting. For business or utility, save 30% with a solar tax credit. System design, permit plans, and installation instructions.

What is a 400 kW solar system?

These 400 kW grid-connected solar kits include solar panels, DC-to-AC inverter, rack mounting system, hardware, cabling, permit plans and instructions. These are complete PV solar power systems that can work for a home or business, with just about everything you need to get the system up and running quickly.

How many square meters does a 400kW solar system require?

This is because as panels get large (in Watts) they also become a little bit more efficient. A 400kW system using 370W panels will require about 1,896.3 square meters of roof to be installed. Each 370W panel measures about 1.75m x 1m. 400kW solar power systems are mostly suitable for Large industrial energy users or solar farms.

How much do solar panels cost?

Modern solar panels that share the same power rating may not share the same features and, consequently, the same pricing. As expected, the more innovative and technologically-advanced solar panels typically cost more than simpler models. The cost of solar panels rated for 400 W output can be anywhere between \$3 and \$5 per watt installed.
