Overview

The Building Regulations cover aspects of building such as fuel conservation and the accessibility and usability of buildings but their overriding concern is for people's safety. In law, responsibility for compliance with the building regulations lies firmly with the person carrying out the work. But let's take a step back, we are.

The Building Regulations 2000 were made under the Building Act 1984 and are applicable in England & Wales The requirements of the Building Regulations (Scotland) 2024 apply in Scotland The Building Regulations.

Local authorities are responsible for compliance with the Building Regulations and most will have a dedicated building control department. There.
