e-Business

Ultralife's Lithium 9-volt battery is a consumer-replaceable battery that lasts up to 5 times longer than ordinary alkaline 9V batteries and 10 times longer than carbon-zinc batteries. It has the highest energy density, flattest discharge voltage curve, longest shelf life, widest operating temperature range, and lightest weight of any comparable 9-volt battery.

Everything You Need to Know About 9 Volt Lithium Batteries

9 Volt lithium batteries are compact, lightweight, and provide a stable voltage output. They are commonly used in smoke detectors, radios, and medical devices. Lithium variants offer longer shelf life and higher energy density compared to alkaline counterparts, making them ideal for high-drain applications.
