Overview

Is ABB expanding its footprint in Malaysia?

KUALA LUMPUR (April 7): Swedish-Swiss electrification and automation leader ABB Ltd is looking into expanding its footprint in Malaysia through partnerships in supporting key projects.

Where is ABB Malaysia based?

Through its wholly-owned subsidiary ABB Malaysia Sdn Bhd, the multinational corporation has set up a second manufacturing plant in the Sungei Way Industrial Zone in Petaling Jaya, Selangor, to expand its capacity in Malaysia in order to meet demand in the region.

Who is ABB Power Products & Systems India Limited?

ABB Power Products and Systems India Limited was incorporated on February 19, 2019 at Bengaluru as a public limited company under the Companies Act, 2013, and was granted the certificate of incorporation by the Registrar of Companies, Bangalore (“RoC”). For further details, see “History and Certain Corporate Matters” beginning on page 37.

What does ABB do?

ABB is a global leader in power and automation technologies. Our solutions improve the efficiency, productivity and quality of our customers’ operations while minimizing environmental impact.

Will Malaysia be a regional hub for Asia's fast-growing energy sector?

ZURICH-BASED ABB Ltd has positioned Malaysia as its regional hub from which to tap Asia’s fast-growing energy sector.

Why should you choose ABB?

As a leader in power and automation technologies that enable utility and

industry customer to improve their performance while lowering environmental impact, ABB integrates the competitive advantage of its R&D strength, global experience and technical know-how with local customer interface and engineering capabilities.
