

Advanced Solar Generator bug

Overview

What is an advanced solar generator?

The Advanced Solar Generator is a highly upgraded version of the basic Solar Generator. Construction of an Advanced Solar Generator requires four Solar Generators, but it produces six times the power of its smaller counterpart. It also requires an area of 3x3x3 Blocks in order to be placed.

How to build an advanced solar generator?

Construction of an Advanced Solar Generator requires four Solar Generators, but it produces six times the power of its smaller counterpart. It also requires an area of 3x3x3 Blocks in order to be placed. Universal Cable or other compatible wire can be connected to the side of the base with a green square or the bottom of the Generator.

How does advanced solar generator work?

This generator will produce energy during daytime if the weather is clear. A non-transparent block above the Advanced Solar Generator will stop its production. The generator's GUI shows the amount of energy stored, if the sun is up and the maximal output. Advanced Solar Generator has no known uses in crafting.

How much power does the advanced solar generator produce?

The Advanced Solar Generator only produces full power during a clear day. It produces no power during night time, and only 20% of what it would otherwise during a rain. By default the Advanced Solar Generator produces 300 J/t in direct sunlight, and can output a maximum of 600 J/t. This amount can be changed inside of the Mechanism Config.

What happens if a non-transparent block is above the advanced solar generator?

A non-transparent block above the Advanced Solar Generator will stop its

production. The generator's GUI shows the amount of energy stored, if the sun is up and the maximal output. Advanced Solar Generator has no known uses in crafting. If playback doesn't begin shortly, try restarting your device.

How do you rotate a solar generator?

Right-click the generator with a wrench or Configurator set to Rotate to rotate the entire assembly. The Advanced Solar Generator only produces full power during a clear day. It produces no power during night time, and only 20% of what it would otherwise during a rain.
