

Ag power systems lesson plans

Overview

What is the agsafety4u curriculum?

The AgSafety4U curriculum aligns to the following Power, Structural, and Technical Systems standards: PST.02.01.01.b. Develop a preventative maintenance schedule for equipment, machinery and power units used in AFNR power, structural and technical systems. PST.02.02.02.a.

What is a agsafetyu course?

PST.02. Operate and maintain AFNR mechanical equipment and power systems. AgSafetyU is an online certificate course that provides an overview of the hazards common to farms and rural agricultural businesses. The course offers a general outline of the measures agricultural workers can take to identify and control such hazards.

How do I design a workshop on Ag Safety?

Design a workshop on ag safety according to rubric. The AgSafety4U certificate course is comprised of student-directed, online modules with corresponding quizzes. The modules consist of written information, diagrams, and pictures for students to read and analyze.

How can students learn a tractor?

Students can label and place sticky notes on a tractor to practice identifying the parts and describing their function. Evaluation is an essential part of learning because it gives students a chance to show what they know, as well as an opportunity for teachers to see how well students have learned the material.

What is the agsafety4u certificate course?

The AgSafety4U certificate course is comprised of student-directed, online modules with corresponding quizzes. The modules consist of written information, diagrams, and pictures for students to read and analyze. The

image to the right is from the module on Connecting and Using Implements with the Tractor.

Power, Structural and Technical Systems Workplace Experience A quality CTE (Career and Technical Education) program delivers all required elements of Illinois' definition of Size, Scope, Quality.

12.BV6Ah

Nominal voltage (V):12.8
 Nominal capacity (ah):6
 Rated energy (WH):76.8
 Maximum charging voltage (V):14.6
 Maximum charging current (a):6
 Floating charge voltage (V):13.6-13.8
 Maximum continuous discharge current (a):10
 Maximum peak discharge current @ 10 seconds (a):20
 Maximum load power (W):100
 Discharge cut-off voltage (V):10.8
 Charging temperature (°C):0-+50
 Discharge temperature (°C): -20-+60
 Working humidity: $\le 95\%$ RH (non-condensing)
 Number of cycles (25 °C, 0.5C, 100%DoD): >2000
 Cell combination mode: 32700-4s1p
 Terminal specification: T2 (6.3mm)
 Protection grade: IP65
 Overall dimension (mm):50*70*107mm
 Reference weight (kg):0.7
 Certification: un38.3/msds
