

Antigravity ag 401 lithium battery

Overview

What is a AG 401 battery?

The AG-401 is the smallest battery in the Antigravity Batteries line-up, and the most compact lightweight Lithium motorsport battery available. Ideal for race and performance applications where you need extreme weight loss, space savings, and extreme power. Ultra-Lightweight and High-Power Lithium-Ion Motorsport Battery.

What is the smallest antigravity battery?

The AG-401 is the smallest battery in the Antigravity Batteries line-up, and the most compact lightweight Lithium motorsport battery available. Ideal for race and performance applications where you need extreme weight loss, space savings, and extreme power.

What is a ag-401 battery?

Ideal for race and performance applications where you need extreme weight loss, space savings, and extreme power. The ultra lightweight AG-401 battery, at a minuscule 4.375 x 1.37 x 3.75 inches (LxWxH to top of terminals), offers extreme power in the most compact size in Lithium Motorsport batteries.

What is an antigravity battery?

Antigravity Batteries' 8 Cell Small Case Race Use Lithium Battery is designed for reliable, hard-cranking power in a package that saves both weight and space. This is made possible by the latest lithium technology Antigravity puts into each of the eight battery cells.

What is antigravity batteries ag-1201?

The Antigravity Batteries AG-1201 is an extremely versatile high power and lightweight Lithium Motorcycle/Motorsports battery. It has the capability for large weight reduction in the most compact size in lithium batteries in its class.

How much does the antigravity ag-401 weigh?

The Antigravity AG-401 is best used for Performance applications where extreme weight loss and ultra compact size are desired. It weighs only 1 lb yet it can start inline 4-Cylinder motors up to 600cc for race use, or up to 250cc for everyday street use in scooters.

Antigravity ag 401 lithium battery

Antigravity 4 Cell Lightweight Lithium Battery

The Antigravity AG-401 4 cell battery is the smallest and lightest lithium starting battery available for the Yamaha R3 and is the battery we choose for our Team YamahaR3Racing race bikes. The Yamaha R3 OEM battery weighs 6 lbs ...

FAQ: Lithium Starter Batteries - Antigravity Batteries

Find answers in our FAQ about Antigravity Lithium Batteries: how to properly charge them for longest life, choosing the correct size, and more. 13.2 - 13.4 V. The Antigravity Battery normal voltage is 13.2V. The battery will read up to 14.7V immediately after

Antigravity Battery AG401

3 ???· This is the smallest battery in the Antigravity Batteries line up. At a miniscule 4.25? Length x 1.25? Depth and 3.75? height (to the top of the terminals) this battery offers extreme power in the most compact size in Lithium Motorsport batteries.

[Antigravity Lithium Battery](#)

Antigravity small case lithium-ion batteries offer the most power and performance in the most compact form factor of any lightweight lithium-ion powersports battery. Featuring 120 cranking amps, the AG-401 is capable of big weight reduction in ...

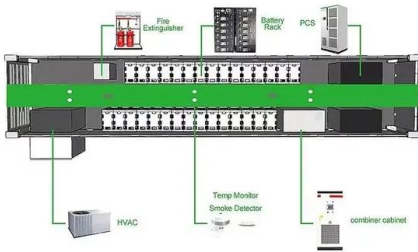

H6/Group-48 Lithium Car Battery

H6/Group 48 OEM Automotive Case size (directly replace stock battery). LxWxH: 10.75 x 7 x 7.5 inches. Amp Hour Options: 24 Ah, 40 Ah, or 60 Ah. High Power: 24Ah=1000CA, 40Ah=1500CA, 60Ah=1800 Cranking Amps. Exclusive RE-START Technology: Wireless Jump-Starting built-in; just press the button on your Keyfob remote.

Antigravity 4-cell small case lithium-ion battery Antigravity small case lithium-ion batteries offer the most power and performance in the most compact form factor of any lightweight lithium-ion powersports battery. Featuring 120 cranking ...

[Antigravity AG-401 - CV Customs](#)

The AG-401 is the smallest battery in the Antigravity Batteries line-up, and the most compact lightweight Lithium motorsport battery available. Ideal for performance applications where you need extreme weight loss, space saving, and extreme power. Small Case format 120 Cranking Amps 6 Amp Hours (Pb Eq) 4.25 x 1.25 x 3.

Antigravity Small Case 4-Cell Lithium-Ion Battery

Antigravity Small Case 4-Cell Lithium-Ion Battery - AG-401 Item # 502226 Description At a miniscule 4.25" Length x 1.25" Depth and 3.75" Height (to the top of the terminals) this battery offers extreme power in the most compact size in Lithium Motorsport batteries.

[AG-801 Small Case Lithium Battery](#)

The Antigravity Batteries AG-801 Lithium 8-Cell Motorsports battery is one of the most popular models. It is an extremely lightweight powerful battery in a small package. Small Case format 4.375 x 2.37 x 3.75 inches (LxWxH) 240 Cranking Amps 11 Amp Hours (Pb)

Antigravity AG-401 Lithium Battery Small Case 4-Cell.

Antigravity AG-401 Lithium Battery Small Case 4-Cell. 120 CA, 6 Ah (Pb Eq) Universal fit. Adhesive-backed foam included \$ 355.22 Original price was: \$355.22. \$ 213.13 Current price is: \$213.13. In stock Ships within 5-10 ...

Antigravity AG-401 Lithium Battery - Bad Winners

The AG-401 is the smallest battery in the Antigravity Batteries line-up, and the most compact lightweight Lithium motorsport battery available. Ideal for performance applications where you need extreme weight loss, space saving, and extreme power. Specifications Small Case format 4.25 x 1.25 x 3.75 inches (LxWxH) 120 Cranking Amps 6 Amp Hours (Pb Eq)/ 2.6Ah (Actual) 1 lb

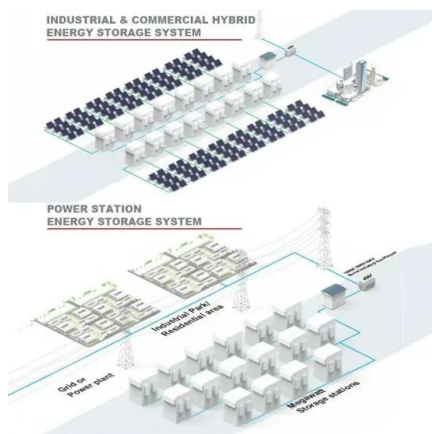

[AG-1201 Small Case Lithium Battery](#)

Antigravity AG-1201 Small Case Lithium 12v Powersports Battery The Antigravity AG1201 battery has 360 Cranking Amps yet is only 4.50 x 3.25 x 4.25 inches (LxWxH to top of terminals). This lightweight Lithium motorsports battery ...
