Less than a decade ago, South Korean companies held over half of the global energy storage system (ESS) market with the rushed promise of helping secure a more sustainable energy future. However, a string of ESS-related fires and a lack of infrastructure had dampened investments in this market.

Experts forecast the global lithium ion battery market to expand from 1.8 GWh in 2016 to 8.5 GWh in 2020 and 16.2 GWh in 2024. The global ESS market in 2016 was about USD 2.56 billion. This amount is expected to increase to USD 15 billion in 2020 and USD 29.2 billion in 2025. Korea's ESS.
