

# Average cost for solar panels

## Overview

---

How much does it cost to install solar panels?

Installing solar panels costs an average of \$27,155, though it ranges between \$3,500 and \$55,000 based on system size, panel type, wattage, and more. Solar panels cost anywhere from \$3,500 to \$55,000, including professional labor and materials. Most homeowners pay an average of \$27,155 on their solar panel installation costs.

How much does a solar system cost?

The solar industry doesn't have a standard pricing structure, so the cost by the customer is based on their energy consumption. The cost of a solar system installation can vary widely when you compare the efficiency rate of the solar panels and other installation expenses. The best solar panels can set you back anywhere from \$15,000 to \$50,000.

Are solar installations cheap?

Solar installations aren't cheap, but the actual equipment is a relatively small part of the total cost. It's only 35% of your total installation cost, according to the US Department of Energy. Soft costs, also known as the hidden costs of installing solar, are nonhardware costs, and they make up 65% of your total solar costs, according to the DOE.

How much does solar cost per watt?

To put that in perspective, using the modeled market price (MMP) of \$2.95 per Watt for residential solar, labor costs contributed just 16 cents per Watt of solar capacity installed. That's tied with structural balance of system (racking) for the second smallest piece of the solar cost pie, as shown below.

How much does a solar battery cost?

They store the energy accumulated from the solar panels. The price varies based on the installer, application and location. Batteries typically cost

\$12,000 to \$22,000, according to the Department of Energy, although smaller capacity systems are available for less. In some cases, solar batteries may be more expensive than solar panels.

How much does a solar project cost?

For example, if you receive a solar quote for \$25,000, you can expect labor to make up around \$1,375 of the all-in cost. (Check out our solar calculator to estimate the cost of your project.)
