

Average enterprise ESS system price per 50kW in Finland

Overview

With the exception of the batteries, the entire solution from controllers to inverters is manufactured in our own premises in Finland using innovative and high-quality Merus®Technology.

The electricity market is in transition, and it is essential to keep up with the times. We are constantly looking for ways together with our customers to find new earning opportunities in different.

Creating a successful business case in the energy storage market is a collaborative process that hinges on understanding the customer's specific needs and investment capabilities. At the core of this process is a team that combines expertise in the electricity market, battery.
