

Average household energy storage price per 500MW in Singapore

Overview

The Energy Prices Chapter contains statistics on Uniform Singapore Energy Price, electricity and town gas tariffs.

The Energy Prices Chapter contains statistics on Uniform Singapore Energy Price, electricity and town gas tariffs.

The Uniform Singapore Energy Price (USEP) is the half-hourly energy price in the Singapore Wholesale Electricity Market. Energy withdrawal from the national grid is settled at the USEP. Since 2022, various measures were introduced to enhance Singapore's energy security and resilience. In Q3 2023.

Statistics on overall utilities are compiled by Singapore Department of Statistics. Statistics on water supply, electricity generation and sales, as well as gas sales are compiled by the Energy Market Authority and the Public Utilities Board. Download all in Excel (23 KB) .

The following pricing data (final) are available for download.

Electricity tariffs are regulated by the Energy Market Authority (EMA) of Singapore and revised quarterly to reflect the actual cost of electricity. SP Services buys electricity on behalf of customers and pays the generation companies, transmission licensee and other market players based on the.

The Singapore Energy Statistics (SES) is Energy Market Authority (EMA)'s annual online publication on energy statistics in Singapore. It aims to provide users with a comprehensive understanding of the Singapore energy landscape through a detailed coverage of various energy-related topics. This.

Government officials will NEVER ask you to transfer money or disclose bank log-in details over a phone call. Call the 24/7 ScamShield Helpline at 1799 if unsure. For more information on how to protect yourself against scams, please visit [What is the Singapore Energy Statistics \(SES\)?](#)

How are electricity tariffs regulated in Singapore?

Electricity tariffs are regulated by the Energy Market Authority (EMA) of Singapore and revised quarterly to reflect the actual cost of electricity. SP Services buys electricity on behalf of customers and pays the generation companies, transmission licensee and other market players based on the rates of the cost components as approved by EMA.

How is average consumption calculated in Singapore?

Note: Average consumption is computed based on total consumption divided by total number of accounts in the respective premises types. Stay informed about the latest electricity tariff rates in Singapore. The quarterly rates reflect changes in costs of fuel and power generation. [Learn more.](#)

What are the four components of electricity tariffs in Singapore?

Note: The four main components of Electricity tariffs in Singapore are: 1. Energy Costs (paid to the generation companies), 2. Grid Charges (paid to SP PowerAssets), 3. Market Support Services Fees (paid to SP Services), and 4.

How much does gas cost per kWh?

A similar trend was observed for the general town gas tariffs. The general town gas tariff increased by 4.1% from an average of 22.2 cents per kWh in 2H 2023 to an average of 23.1 cents per kWh in 1H 2024. The trends observed for electricity and town gas tariffs were largely due to changes in cost of natural gas supplies.

What is the cost of power generation?

The cost of power generation covers mainly the costs of operating the power stations, such as the manpower and maintenance costs, as well as the capital cost of the stations. Note: Average consumption is computed based on total consumption divided by total number of accounts in the respective premises types.
