

# **Average hybrid solar inverter price per 10kWh in Australia**

## Overview

---

According to the National Solar Choice Price Index, the average price of a 10kW system in December 2024 is \$9,120 Australia-wide: however, this can vary between states. What is a hybrid inverter?

A hybrid inverter (also known as a multi-mode inverter) is capable of managing the electricity output of solar panels and charging a battery system; while also operating with mains grid supply. Given this extended capability, prices tend to be higher compared to a standard string solar inverter.

How much does a hybrid solar system cost?

The solar backup functionality adds to the cost of a hybrid system by anywhere between \$1,500 – \$3,500. It is possible to buy a battery ready system in preparation for the purchase of a battery in the short to medium-term. A battery ready system comes with a hybrid inverter so that a new battery can fit straight into the system at a later date.

Are hybrid solar inverters battery ready?

Hybrid solar inverters represent a true ‘battery ready’ inverter setup, as described in our article on the truth about battery ready systems. But you don’t have to have a hybrid inverter for a battery system. Using a method called “AC coupling”, you can retrofit batteries to any existing solar system regardless of what inverter you have.

What is the iStore hybrid inverter 10kW?

Maximize your solar setup with the iStore Hybrid Inverter 10kW. A single-phase solar product built for power, flexibility, and battery readiness. Learn more!.

How much does a 10kW Solar System cost in Australia?

According to the National Solar Choice Price Index, the average price of a 10kW system in December 2024 is \$9,120 Australia-wide: however, this can

vary between states. Generally, you can expect to pay between \$7,500 – \$13,000 for a good quality 10kW solar system, factoring in available subsidies and rebates.

Do you need a hybrid solar inverter?

Given this extended capability, prices tend to be higher compared to a standard string solar inverter. Hybrid solar inverters represent a true 'battery ready' inverter setup, as described in our article on the truth about battery ready systems. But you don't have to have a hybrid inverter for a battery system.

## Average hybrid solar inverter price per 10kWh in Australia

### 10kW Hybrid Solar Inverter: Price Guide & Top Picks ...

Discover the best 10kW hybrid solar inverters for 2025. Explore top models, features, and price trends to make an informed choice for your solar energy system.

#### [iStore 10kW three phase hybrid inverter](#)

Proudly Australian-made, iStore's hybrid inverters are designed for safety, reliability, and efficiency. With AFCI protection, they cut off DC arcs within 0.5 seconds to reduce risk of fire.

#### [How Much Does a Solar Inverter Cost? \(2025\)](#)

A solar inverter costs \$1,500 to \$3,000 total on average for a medium-sized solar-panel system installation. Solar inverter prices depend on the size and whether it's a string inverter, microinverter, or hybrid model. String ...

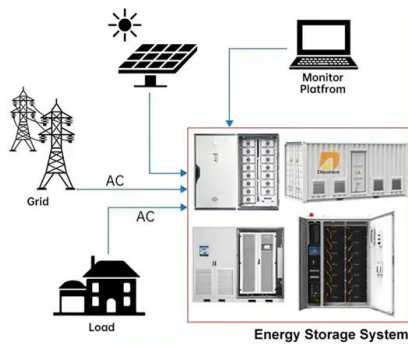

### 10kW Solar Battery Australia: Cost, Benefits & Buying Guide

Unlock energy independence with a 10kW solar battery in Australia. Discover the complete cost, benefits, and key factors to consider when investing in solar storage.
