**12 volt problems**

Hi, can anyone offer some advice please? We seem to have an issue with the 12V system. None of the lights come on but the mains sockets and 230V sources all work fine. All fuses including the main inline battery fuse are okay. However the lights on the charge controller are not on. It's a Bailey

## Pure Power Systems Inc

Tests at the Northrop Grumman Corporation demonstrated that the Unit improves power quality and circuit efficiency by balancing the amps and volts in 3-phase systems. By connecting the phases magnetically with wrap-around magnetic choke, corrected power factor (PF), reduced harmonics, absorbed surges and sags, attenuated transients, improved the motor efficiency ...
