Just search your location, and you'll find approved facilities that safely handle battery materials like lead and battery acid, keeping these hazards out of landfills.

Car Battery Replacement / New Car Batteries , NAPA Auto Parts

The average car battery life (called the service life) is three to five years. Battery degradation increases when exposed to heat, which is why batteries often have a longer life in the cooler north. By the fourth year of your battery's service life, it's a good idea to purchase a new car battery before the current one fails.
