Overview

What is a battery-box HV?

The Battery-Box HV is the first real high voltage battery that comes with a flexible and modular design with no cables inside. One Battery-Box HV contains 5 to 9 battery modules B-Plus H 1.28 in series connection and reaches up to 11.52 kWh usable capacity.

What is a battery-box premium HVS?

One Battery-Box Premium HVS is composed of 2 to 5 HVS battery modules that are connected in series to achieve a usable capacity of 5.1 to 12.8 kWh. Additionally, direct parallel connection of up to 3 identical Battery-Box Premium HVS allows a maximum capacity of 38.4 kWh. Ability to scale by adding HVS modules or parallel HVS stacks later.

How safe is the battery-box?

The Battery-Box meets the highest safety standards like VDE 2510-50 (HVS/HVM/LVS) and receives many awards and seals. In the independent Energy Storage Inspection of the university HTW Berlin, the Battery-Box is ranked as the battery with the highest efficiency on the market. Battery-Box Premium HVS.

How many batteries can be connected to a battery box HV?

One Battery-Box HV contains 5 to 9 battery modules B-Plus H 1.28 in series connection and reaches up to 11.52 kWh usable capacity. The parallel connection of up to 5 identical Battery-Box HV allows a maximum capacity of 57.6 kWh.

What is a BYD battery box?

The BYD Battery-Box is a lithium battery unit with battery control unit (BCU) for usage with an external inverter. The flexible battery systems in the three versions: Battery-Box HV, Battery-Box Res and Battery-Box Pro provide

maximum safety, lifetime and performance, which makes them the perfect batteries for all applications.

What is a battery-box premium LVS?

One Battery-Box Premium LVS is a lithium iron phosphate (LFP) battery pack for use with an external inverter. A Battery-Box Premium LVS contains between 1 to 6 battery modules LVS stacked in parallel and can reach 4 to 24 kWh usable capacity. Connect up to 16 Battery-Box LVS 16.0 in parallel for a maximum size of 256 kWh.
