

Battery station

5 Years warranty

Overview

What is a battery station?

The battery station is a one-stop solution for battery charging, storage, and transport. The battery station is a one-stop solution for battery charging, storage, and transport. The new Storage Mode and Ready-to-Fly Mode improve charging efficiency and extend the battery life.

What is a station battery bank?

Station battery banks are crucial for the proper operation of an electrical power substation. When station service power is lost, the battery bank must power 1) the tripping and closing of circuit breakers, 2) all of the protective relays, 3) all indicators and annunciators, and 4) the remaining auxiliary equipment.

What are the batteries in the base station?

The batteries in the Base Station are Nickel Metal Hydride (NiMH) rechargeable batteries. Regular alkaline batteries should never be inserted into the Base Station as they may damage the device. Once you have acquired the necessary Nickel Metal Hydride (NiMH) rechargeable batteries, you can follow the steps below to replace them:
