[Renewable Energy , Grant Thornton Australia](#)

Australia's renewable energy sector can transform our economy. Businesses from all industries, and Federal and State governments alike have emission targets on their radars, and the appetite for investment, support and use of clean energy is growing but it also remains a highly complex and regulated environment.

**Rural Energy for America Program
Renewable Energy Systems & Energy**

This program helps increase American energy independence by increasing the private sector supply of renewable energy and decreasing the demand for energy through energy efficiency improvements. Over time, these investments can also help lower the cost of energy for small businesses and agricultural producers.

Application scenarios of energy storage battery products

Funding

From research to large-scale deployment, ARENA funding spans the entire innovation chain. We accelerate the affordability of new technologies and build investor confidence in renewable energy projects now and into the future.
