

Bequiet system power 8 500w

Overview

Is system power 9 cm 500W quiet?

be quiet! System Power 9 CM 500W offers renowned be quiet! reliability and quietness for cost-effective and reliable systems. Functionality cookies are not set. You cannot proceed without functionality cookies. Please activate them. More information. System Power 9 CM 500W is equipped with a temperature-controlled 120mm fan.

What is system power 9 500W?

System Power 9 500W provides stable and dependable power for CPU and GPU. It is equipped with 2 independent 12V-rails and supports several graphics cards with 2 PCI express connectors for powerful GPUs. The PSU is equipped with DC-to-DC conversion for tight voltage regulation, even under heavy cross-loading conditions.

What is a be quiet system power U9?

The be quiet System Power U9 line consists of four members with capacities ranging from 400W to 700W. These are mainstream units, suitable for cost-effective systems with low power requirements where efficiency isn't priority one.

What is a quiet system power u9-500?

This unit competes well against the highly-popular Corsair CX450 providing a good alternative to users that want to build a silent system, since the SU9-500 is notably quieter. The be quiet System Power U9 line consists of four members with capacities ranging from 400W to 700W.

Is system power 8 quiet?

According to be quiet! it's practically inaudible at up to 50 per cent load (300W) and then rises steadily and predictably until full chat. System Power 8 needs to be installed into a wide range of chassis - big and small - so the

140mm depth makes sense. The other dimensions are typical, too, at 150mm wide and 86mm high.

Can a system power 8 600W be installed in a mainstream build?

We'd be happy to install something like the be quiet! System Power 8 600W into a mainstream build, and many system integrators will choose to do exactly that, but while these are fine for mainstream units they lack the reliability and quality you'd like to see in an enthusiast power supply.
