

# **Best budget power stations**

## Overview

---

What is the best budget portable power station?

Ecoflow River 2 Pro: A previous title holder for "best budget portable power station," this is still a great pick for anyone looking for affordable power options. It charges fully in just over 1 hour and accesses a respectable 82.6% of the battery's 768Wh stated capacity.

Are portable power stations worth it?

Portable power stations are fantastic, but many setups are eye-wateringly expensive -- sometimes several thousand dollars. If your budget doesn't extend to four digits, fear not -- there are fantastic power stations that you can pick up for a lot less. Also: The best portable power stations you can buy: Expert tested.

What are the best cheap power stations?

My favorite cheap power station is the EcoFlow River 2: it's under \$200, it can push out up to 600W of power, and it can connect to a cheap solar panel, transforming it into an affordable solar generator. Read on for the rest of my tested picks for the best cheap power stations you can buy.

What is a good power station?

A power station that's no bigger than a basketball and ideal for road trips. It's small enough to seatbelt into a spare seat or put in the trunk with the rest of your camping gear. A great power station for those who want to charge their laptop when out and about. It's small, lightweight, can be charged using USB-C, and is highly portable.

Where can I buy a portable power station?

There are plenty of other portable power station options available on the market. Most are available at stores like Lowe's, Home Depot, and others, and I recommend checking out these models. ZDNET saves you time and money

by delivering the best products and tech deals to your inbox every week.

What is the most expensive portable power station?

There are also battery expansions for the Mango Power E. The one downside is the price tag, as this unit also comes through as the most expensive portable power station with a list price of \$4,250. Milwaukee M18 Carry-On Power Supply: This is a different unit to include on this list, but it does meet all the requirements, so here we are.
