

Best portable power stations 2023

Overview

What is the best portable power station?

One of the best portable power stations to let you draw power from the sun, the Jackery Solar Generator 2000 Pro more than makes up for its price and weight with high capacity and high performance. 7. Deeno GT X1500 The Deeno GT X1500 has a lot going for it. It's a great size with great handles to help carry this power station a bit easier.

Are portable power stations worth it?

Portable power stations are great for powering larger devices, but if you're in the market for a more modest power source—one you can use to charge a laptop or phone—see our roundup of best power banks for our top picks in that category instead.

What can a portable power station Power?

A portable power station can power your phone, computer, or even your refrigerator. We researched the best portable power stations to help you decide which is right for you.

Where can I buy a portable power station?

There are plenty of other portable power station options available on the market. Most are available at stores like Lowe's, Home Depot, and others, and I recommend checking out these models. ZDNET saves you time and money by delivering the best products and tech deals to your inbox every week.

What is the lightest portable power station?

3. Renogy Phoenix 200 The Renogy Phoenix 200 is part of Renogy's portable power station lineup for a good reason. It's one of the lightest power stations in its class, weighing only 5.3lb while still housing a battery with 222Wh.

What is the best portable power station for backup?

Anker Solix F1200 (1,229Wh): This unit was previously known as the PowerHouse 757 from Anker, and was also CNET's previous pick for "best portable power station for backup." Its UPS mode was one of the earlier units to boast "less than 20ms" switchover time in the event of a power outage. It's also currently \$500 off on Anker's site.
