

# **Best solar energy provider nsw**

## Overview

---

Which provider has the best solar feed-in tariff in NSW?

Origin Energy currently has the best solar feed-in tariff in NSW, where eligible customers on a single rate tariff can get 20 cents per kilowatt hour (c/kWh) for feeding electricity into the grid. AGL has the second highest feed-in tariff rates at 15c/kWh. Which provider has the best solar feed-in tariff in NSW?

Origin Energy currently has the best solar feed-in tariff in NSW, where eligible customers on a single rate tariff can get 20 cents per kilowatt hour (c/kWh) for feeding electricity into the grid. AGL has the second highest feed-in tariff rates at 15c/kWh.

Who are the best solar providers in NSW?

GloBird GloBird is a relatively new player in the energy market, but they have already established themselves as one of the top solar providers in NSW. With a minimum FiT of 5.00 c/kWh and a maximum FiT of 11.00 c/kWh, GloBird offers competitive rates for both residential and commercial solar customers.

Where can I buy solar energy in NSW?

Energy Australia is one of the largest electricity retailers in Australia, offering a variety of solar plans to customers in NSW. Their minimum feed-in tariff (FiT) is 6.60 cents per kilowatt-hour (c/kWh) and can go up to an impressive 15.00 c/kWh.

Is New South Wales a good place to buy solar?

New South Wales has a well-developed energy market, with a myriad of retailers offering a range of solar products. Feed-in tariffs in NSW can be anywhere from 1c/kWh to 12c/kWh or more, meaning it's definitely in your financial interests to shop around.

Which energy retailers offer a 15 c/kWh rate in NSW?

The 15 c/kwh rate only applies to the AGL Solar Savers plan . There are few other energy retailers like Red Energy, Momentum Energy and Origen present, but it took the number two spot because their supply usage charges are lower than the others. 3. Origin Origin energy takes out the third spot on our top pics for Feed-in tariffs in NSW.

What is the average solar energy rate in NSW?

The current benchmark rate in NSW is 4.6 to 5.5 c per kWh for 2023-2024. In Australia, there are guidelines that regulate the maximum size of your solar PV system. These guidelines vary depending on your network, where your home is located, and whether your home is a single-phase or three-phase connected property.
