## Overview

---

Who are the best solar companies in Texas?

According to solar shoppers on the EnergySage Marketplace, the top five solar installers in Texas are IntegrateSun, LLC, Texas Solar Professional LLC, Demand Construction, Green Power Energy, and NRG Clean Power. How many solar companies are in Texas?

There are 32 solar companies in Texas on the EnergySage Marketplace.

How many solar companies are there in Texas?

There are 32 solar companies in Texas on the EnergySage Marketplace. Should you choose a local or national solar installer?

According to a study by the National Renewable Energy Laboratory (NREL), solar quotes from national installers are about 10 percent higher, on average, compared to those provided by local installers.

Is Texas a suitable location for solar energy?

The sunshine in Texas makes it a suitable location for generating solar energy. The Lone Star State has many solar energy companies to choose from, and we've simplified the shopping process by reviewing the top solar companies in the United States.

Does Texas have a solar power market?

Solar installations in Texas have steadily increased over the last 10 years; in fact, the state is currently ranked as the second-largest solar power market in the nation by the Solar Energy Industries Association (SEIA). Local utility companies and cities encourage this growth through money-saving solar buyback programs and rebates.

How much solar power does Texas have?

Texas has become the U.S. leader in solar power, ranking ahead of California and Florida. According to the Solar Energy Industries Association (SEIA), Texas installed 2,499 megawatts (MW) of solar capacity during the first half of 2023, reaching a capacity of 18,801 MW. That is enough solar capacity to power more than 2.24 million homes.

Are solar panels worth it in Texas?

Solar panels may be worth it for many Texas homeowners considering the energy market in the state. According to the Environmental Impact Assessment (EIA), Texas consumes more electricity than any other U.S. state, so homeowners stand to save money by generating their own energy rather than purchasing it from the traditional grid.
