Overview

Who is Moxie solar?

Moxie Solar is a North Liberty-based solar company founded in 2008 that operated in 27 states and employed at least 45 people in Johnson County from its location at 323 W Cherry St. in North Liberty. The company contracted to install solar panels and electric vehicle charging stations on homes, businesses, farms and other locations.

What happened to Moxie solar?

Moxie Solar, a North Liberty-based solar company, has closed following over a year of complaints and lawsuits lodged against the company by customers.

Is Moxie solar still in business?

Moxie Solar told the Press-Citizen it intends to address the issues and remain in business, but its future remains uncertain. The solar installation company, founded in 2008, is now owned by CEO Jason Hall of North Liberty. It has expanded its reach to 27 states and employs 45 people in Johnson County.

Did Moxie solar fail to install Enphase encharge?

There are two major civil lawsuits filed against Moxie Solar in Iowa. One is from North Liberty residents Josh and Mackenzie Bates who claim the company failed to deliver and install an Enphase Encharge 10-kilowatt battery and failed to install the correct racking system and specific skirting for the array on their property.

Did Moxie solar fail to install the correct racking system?

The couple's August contract with the solar company details a \$42,682 project to be paid for in two installments. The lawsuit alleges Moxie Solar failed to install the correct racking system that month and acknowledged the mistake in December. This lawsuit is scheduled for a Sept. 2023 trial.
