

Bill gates energy storage investment

Overview

Breakthrough Energy Ventures and Lowercarbon Capital co-led a \$50 million financing round in Antora Energy, a start-up looking to decarbonize industrial processes. The thermal battery would store heat from solar and wind farms and provide an alternative to the natural gas boilers that are used by heavy industrial processing companies. Is Bill Gates backing a new thermal storage startup?

Bill Gates' Breakthrough Energy Ventures is backing a new thermal storage startup, expanding its investments in long-duration power backup. Fourth Power converts renewable power to heat, storing it for future use.

Where is Gates Energy headquartered?

It moved to the Portland State Business Accelerator before expanding to its current 200,000-square-foot headquarters. The company is backed by Breakthrough Energy Ventures, Gates' clean energy investment firm; SB Energy, a wholly owned subsidiary of SoftBank; and multinational chemical company BASF, among other investors.

Will energy storage be a priority for investors?

A report from Reuters Events, released Dec. 11, said increasing power generation from renewable resources and rising use of electric vehicles will make energy storage a priority for investors in the coming years. The report said storage technology will continue to play a major role in the energy transition as cleaner energy replaces fossil fuels.

Could fourth power save money on long-term energy storage?

Fourth Power's technology could bring down the costs of long-term energy storage. High tension power lines and solar panels at the Dhafra solar power plant near Abu Dhabi, United Arab Emirates. Fourth Power is looking to store energy generated by renewables as heat for hours to days.

Will energy storage become a priority technology in 2024-2026?

Respondents to a survey of hundreds of energy industry professionals earlier this year said “energy storage will become the priority technology in 2024-2026,” with 43% of respondents “stating that their organization planned to invest in the technology within the next three years,” according to Reuters. 2.

Will Breakthrough Energy Ventures raise fund 3?

Gates told the FT that Breakthrough was “in the process of raising fund three and that’s going very well”. The number of companies that Breakthrough Energy Ventures invested in would increase by some 40 per cent to about 140 holdings across sectors from energy to agriculture as a result.
