

Boston university renewable energy

Overview

Location: South Dakota Annual Energy: 205,000 MWh of wind energy BU purchases electricity from 48.6 MW of wind generation capacity annually through a 15-year Power Purchase Agreement (PPA) with ENGIE North America. The University will receive and retire the associated 205,000 Green-e Certified.

The University Climate Action Plan Task Force's PPA recommendation developed eight important criteria to be met: 1. New renewable energy 2. Renewable Energy Certificates (RECs) 3.

Boston university renewable energy

Renewable Energy and Boston Community Choice Electricity

The Boston Community Choice Electricity (BCCE) program provides renewable electricity to its customers. The program does this through the purchase of Renewable Energy Certificates (RECs). You can find questions and answers below about how that works.

Resources: Sustainable Energy

Sample list of organizations in environment, including professional associations, Boston & MA-based employers, and employers who recruit and hire BU students International Renewable Energy Agency (IRENA) Promotes the widespread adoption of all forms of
