

Box power systems

Overview

What can boxpower do for You?

From energy audit to operation, BoxPower provides a seamless end-to-end solution for rural microgrid projects. BoxPower's hybrid solar microgrids offer immediate savings over line hardening and maintenance in remote areas. Our fire-safe systems provide a permanent energy supply to replace traditional utility lines.

What is a boxpower system?

Both product lines are rapidly deployable with easy PV racking hardware, pre-wired outlets, and permit-ready designs. All BoxPower systems can operate as a permanent off-grid energy supply or grid-tied for emergency backup and peak shaving.

What is the BoxPower Minibox?

The BoxPower Minibox is a pre-engineered solar power station, prefabricated inside a 4' x 8' palletized enclosure. It is equipped with a solar array, batteries, inverters, and the option to add an integrated generator. The MiniBox microgrid solution can seamlessly switch between off-grid and grid-tied operation.

Where is boxpower located?

BoxPower is located in Grass Valley, California, United States. Who invested in BoxPower?

BoxPower has 8 investors including VerisFi Capital and ECP ForeStar. How much funding has BoxPower raised to date?

BoxPower has raised When was the last funding round for BoxPower?

.

Who are Powerbox-systems?

Products made by PowerBox-Systems are the world's most widely sold and most reliable power supply systems available, with sales partners in more than fifty countries. Of all the power supply systems employed in model aircraft this makes us Number One supplier.

What is a boxpower solar power station?

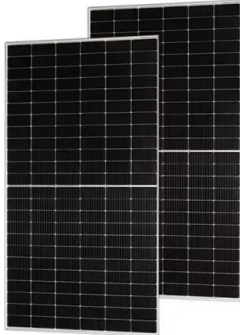

A compact, towable solar power station with 3.8 kW of PV, battery storage, and optional generator, designed for small off-grid or grid-tied applications.

Where is BoxPower's headquarters?

BoxPower is located in Grass Valley, California, United States.
