Application scenarios of energy storage battery products

The Renewable Power & Transition Story

When we started investing in hydropower in the 1980s, little did we know that we were positioning Brookfield in the front row for one of the most significant shifts in the energy business. Even when we began investing in renewable assets in 2010, oil was cheap and readily available to most of the world, and climate change wasn't a widely held concern.

Luke Edwards

Luke Edwards is Managing Director and Head of Australia in the Renewable Power & Transition Group. In this role, Mr. Edwards is responsible for the overall growth and management of renewable power and transition investments, operations and development activities in Australia. He previously served in Brookfield's Infrastructure Group, where he focused on investment ...
