Sustainability Case Study: Renewable Energy , Brookfield

Brookfield's newly opened mixed-use complex in Shanghai, One East, uses renewable energy to collaborate on net zero-strategies with tenants. During construction, Brookfield installed solar panels on the roof of the complex's retail area, which is visible to the tenants of both office towers.

[The Renewable Power & Transition Story](#)

When we started investing in hydropower in the 1980s, little did we know that we were positioning Brookfield in the front row for one of the most significant shifts in the energy business. Even when we began investing in renewable assets in 2010, oil was cheap and readily available to most of the world, and climate change wasn't a widely held concern.
