

Building photovoltaic panels on your own roof

Overview

Can solar panels be installed on a roof?

"The solar panels will need to be mounted on the roof by installers who understand roofing and will need some scaffold decks to safely get the panels to the roof.

How do you install solar panels on a roof?

Installing a solar system requires following a simple eight-step checklist as follows: Erect your scaffold and make your roof safe: depending on your roof you may get away with a scaffold tower. You can skip this section if you're going for a ground installation. Add the roof anchors: solar panels won't stay up with gaffer tape.

Can solar panels be mounted on a flat roof?

For solar panels on a flat roof, mounting systems are slightly different and can include a triangle 'ballast' box to support the panels. For solar thermal panels (with cells that use the sun's heat to warm water in a house) things are a little different.

How to install solar panels?

Make space for the solar panel accessories (solar inverter, cables and solar batteries, if desired), for instance in a plant room 4. Plan a day for installation 5. Erect the scaffolding (this can be done by your supplier or by a company you organise) 6. The solar panel mounts will be installed 7. The professionals will install the solar panels 8.

Where can I buy DIY solar panels?

Several companies specialise in selling DIY solar panel kits to the public. Plug-in Solar is particularly easy to follow, and offers a wide range of kits and step-by-step DIY guides, plus accessories such as solar panel mounting kits. Renology, Select Solar and Sunstore Solar are also well worth a browse.

Do solar panels need to be built in the UK?

Regardless if you hire an installer or you carry out a DIY home solar system installation, your solar panel installation needs to follow the standard UK building regulations for your area. These regulations typically are: 1. Ensure that your roof is strong enough to support your panels 2. Mitigating the risk of fire your solar panels pose. 3.
