

Buy your own solar system

Overview

Should you buy a DIY solar kit?

To ensure you purchase the perfect DIY kit, every project is custom designed for your home and energy needs. If you can follow a recipe, you can install your own solar. DIY Solar kits with everything you need to go solar! Rooftop solar panels are a great option to reduce your energy costs and environmental impact.

How much does DIY solar cost?

When you DIY solar, you can do so with either a solar panel kit, or from scratch. Solar panel kits range in price; a 6kW system can cost anywhere from \$7,000 - \$18,000 before the 30% federal tax credit. However, this doesn't include permitting costs or installation, which would be included if you work with an installer.

Can you install solar panels on your own?

It's possible to install solar panels on your own, but DIY solar installation requires serious know-how and tools. Some solar companies design solar panel kits targeted toward DIYers. However, these kits are often meant for small builds, such as converting a shed, RV, or boat. Installing a solar energy system requires knowledge of electrician work.

Should I build my own Solar System?

If you build your own solar system, you do not get any monetary incentives, warranties, or any support from manufacturers. Working with professional installers is the better option – guaranteeing safe, reliable, and warranted panels for its 25-year lifespan. How much does it cost to build your own solar panel system?

.

Is it cheaper to build your own solar panel system?

Yes, it's cheaper to build your own solar panel system. Since you don't have to pay for labor and other overhead costs, you could save \$5,000 or more with a DIY system. However, installing solar panels is a complicated process with many possible mistakes, and you may have less access to cost-saving solar incentives.

How do I buy solar panels?

How you choose to buy solar panels depends on your financial situation and your savings goals. Paying cash is the simplest way to buy solar panels and offers the greatest return on investment. Cash purchases are typically made in 3-4 installments. For example:
