

Call to recycle locations

Overview

Where can I drop off a battery?

Call2Recycle partners with battery drop-off locations nationwide. Find participating stores, libraries, and resource recovery centers near you.

Does Call2Recycle recycle batteries?

Call2Recycle specializes in battery recycling and lets you narrow your search by whether you're looking to recycle rechargeable batteries, single-use batteries, cell phones, or e-bike batteries. It has an extensive list of public and private collection sites (including its own, which collects batteries weighing up to 11 pounds apiece).

What is Call2Recycle?

Call2Recycle, a not-for-profit organization, is a battery recycling program, active in the USA and Canada.

Where can I recycle e-waste?

Greener Gadgets lets you search for facilities that recycle many types of e-waste, including televisions, monitors, computers and laptops, printers, and mobile phones. You can filter by the latter category to find facilities that also accept batteries, since most recyclers that collect battery-containing items such as phones take batteries as well.

Can you recycle a phone?

Whether you have just one or are managing a large recall, Call2Recycle has recycling kits and options available. Cellphones and their batteries are one of the easiest electronics to recycle. They can be refurbished for resale or recycled and the materials used in new products.

What electronics can be recycled?

Cellphones and their batteries are one of the easiest electronics to recycle. They can be refurbished for resale or recycled and the materials used in new products. *Single-use batteries are accepted by select collection partners in the U.S. Check out the drop-off locations near you to verify which materials they accept.
