

Campagnolo super record 11 ultra shift ergo power system

Overview

Are Campag Super Record ErgoPower shifters any good?

The Super Record units still maintain that traditional shape of Campag's previous Ergopower shifters, which fit your hands very comfortably, and the shape of the carbon fibre brake lever gives you good purchase when pulling on the brakes hard, ideal on rough sections of road.

Does Campagnolo have wireless shifting?

Today, Campagnolo has finally launched its highly anticipated, range topping Super Record Wireless groupset. The new shifting system, which has been heavily rumoured over the last few months, features fully wireless shifting, like SRAM eTap.

Does Campagnolo have a thumb shifter?

The first thing you'll notice is that Campagnolo has done away with the thumb shifter which, if you aren't aware, sat on the inside of the hoods. It was used on the previous version of the electronic Super Record EPS groupset, but for this upgrade Campagnolo has gone for two buttons on the brake lever.

Is Super Record wireless better than Campagnolo?

For myself and the many Campagnolo fans that are out there, Campagnolo's brand is synonymous with racing heritage, performance, and Italian style. That means that when I go to shift a chain using a Campagnolo groupset, that shift should be faster, crisper, smoother, and simply better. That isn't the case with Super Record Wireless.

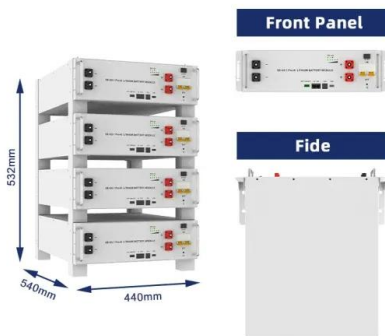

Does Campagnolo have a wireless groupset?

Campagnolo's Super Record Wireless follows four versions of its wired EPS electronic groupset. The new groupset features new Ergopower Control levers that wirelessly shift the derailleurs, each with its own battery. This makes for a truly wireless system, similar to what SRAM offers.

Campagnolo Record 11-Speed EPS Ergo Power Shift/Brake

Record 11 EPS differs little from its big brother, Super Record 11 EPS, and the same goes for their corresponding EPS shifters. The Super Record 11 EPS Ergopower Shifters' have an almost negligible weight advantage, making the Record 11 EPS shift levers the choice for canny consumers looking to lessen the hit on the wallet of the EPS technology.
