

Canadian Solar Power Plant Address

Overview

Canadian Solar production facilities in Canada, China, Indonesia, Vietnam and Brazil make ingots, wafers, solar cells, solar PV modules, solar power systems, and other solar products. The bulk of Canadian Solar's manufacturing facilities are located in Canada and China. The Ontario plant has a production capacity of over 500 MW per year. Canadian Solar offers solar modules, solar power systems, off-grid solar home systems and oth.

Who is Canadian Solar?

Over the past 23 years, Canadian Solar has successfully delivered over 125 GW of premium quality, solar photovoltaic modules to customers. Since entering the project development business in 2010, Canadian Solar has developed, built, and connected over 10 GWp of solar power projects and 3.3 GWh of battery energy storage projects across the world.

Where is Canadian Solar headquartered?

Canadian Solar is headquartered in Guelph, 545 Speedvale Ave W, Canada, and has 27 office locations. View a company's locations by country, city, postal code, and address. Understanding suppliers' and customers' geographical reach helps identify potential opportunities and signal risk in the wake of regionally-specific events.

What are some of Canadian solar's projects?

Below are some of Canadian Solar's projects: Recurrent Energy: Canadian Solar completed the acquisition of solar developer Recurrent Energy from Sharp Corporation for approximately \$265 million in 2015. ^ "Q4 & FY Results 2022".

How many kilowatts can Canadian Solar power?

In addition, Canadian Solar can handle the deployment of photovoltaic projects systems, ranging a few hundred kilowatts to mega-watts. Canadian Solar's standard modules are powered by 156 x 156 mm (6 inch) mono-crystalline or poly-crystalline solar cells.

When did Canadian Solar go public?

With the company's acquisition of Recurrent Energy, Canadian Solar's total project pipeline reached 20.4 GW, including an increase in the late-stage project pipeline to 2.4 GW. In November 2006, the company went public (Nasdaq: CSIQ) at \$15 per share.

How many patents does Canadian Solar have?

Launched the SolBank, a proprietary designed and manufactured energy storage battery solution for utility-scale applications and the EP Cube, a lightweight and sleek all-in-one residential energy storage solution in Sept. 2022. By the end of 2024 March, Canadian Solar has 2,231 authorized patents worldwide.
