

Canadian Solar household energy storage system export

Overview

Is Canadian Solar launching a new residential energy storage solution?

Canadian Solar will launch a new residential energy storage solution, the EP Cube, at the RE+ trade show next week. Dr. Shawn Qu, Chairman and CEO of Canadian Solar commented, “We are pleased to expand our clean energy offering into the residential energy storage market by launching the EP Cube, leveraging our existing partnerships and channels.

Does Canadian Solar have a home energy management app?

Canadian Solar is also releasing an app to help homeowners manage their energy storage systems. The EP Cube app will allow for easy, real-time monitoring of energy production and consumption. Homeowners will have access to home energy management and over-the-air (OTA) software update services.

How does Canadian Solar's energy storage system work?

In addition, the energy storage system incorporates the Smart Gateway, an intelligent technology platform that enables automatic and seamless energy transfers for on- or off-grid use without user disruption. Canadian Solar is also releasing an app to help homeowners manage their energy storage systems.

Where can I find more information about Canadian Solar?

For additional information about the Company, follow Canadian Solar on LinkedIn or visit [e-STORAGE](#) is a subsidiary of Canadian Solar and a leading company specializing in the design, manufacturing, and integration of battery energy storage systems for utility-scale applications.
