

Canadian Solar photovoltaic panel specifications

Overview

Specifications Of Canadian Solar All-Black Series: Power range: 310-335W Efficiency: 16.2% Temperature coefficient (Pmax): -0.36%/°C Lower hot spot temperature Better shading tolerance Warranty: 12/15 years enhanced product warranty on materials and workmanship, 25 years linear power output warranty How efficient are Canadian solar panels?

This Canadian Solar module reaches an efficiency of 20.37% — much higher than average values on the market. Solar panels of this NA manufacturer are famous for excellent performance in all types of weather. The modules barely lose any efficiency on cloudy days.

Are Canadian solar modules a good choice?

*Black frame product can be provided upon request. Canadian Solar's modules are the best in class in terms of power output and long term reliability. Our meticulous product design and stringent quality control ensure our modules deliver a higher PV energy yield in live PV system as well as in PVsyst's system simulation.

Who is Canadian Solar Inc?

CANADIAN SOLAR INC. is committed to providing high quality solar products, solar system solutions and services to customers around the world. No. 1 module supplier for quality and performance/price ratio in IHS Module Customer Insight Survey.

What is the power range for Canadian Solar panels?

Canadian Solar HiKu6 Mono 144 Cell Series Solar Panel has a power range of 525W to 545W. Canadian Solar has grown to become one of the world's largest providers of solar photovoltaic products and energy solutions, as well as one of the world's largest developers of solar power stations.

How many solar cells does a Canadian solar panel have?

This robust panel also features 72 solar cells for a high solar system yield, even at low irradiance. The perfect solution for the majority of residential homes, the Canadian Solar All-Black panel has 60 solar cells and produces a high energy yield in a domestic situation.

How many GW of solar modules are there?

Over the past 20 years, it has successfully delivered over 70 GW of premium-quality solar modules across the world. 6-Φ5 Grounding Hole Nominal Max. * Under Standard Test Conditions (STC) of irradiance of 1000 W/m², spectrum AM 1.5 and cell temperature of 25°C.
