

Canadian solar panel review

Overview

While Canadian solar panels are very cheap, their efficiency is significantly lower compared to 22.6% of the world leaders like SunPower and LG. This means that you'll need many solar panels to get the most of your solar systems. It's ideal for homeowners with a large roof space and a tight budget. Is Canadian Solar a good company?

Canadian Solar is a top company in terms of power output and efficiency. Its residential solar panels can produce 450 watts, which ranks it among the top solar panel providers. The company's solar panels have efficiency ratings that reach as high as 23%, the highest efficiency rating of any residential solar panel.

Are Canadian solar panels a good choice?

Though Canadian Solar panels offer a good price, they have lower efficiencies than other modules on the market. With an average efficiency rating of 16.6% across their product line, their efficiency is lower than many of Panasonic or Sunpower's offerings.

How much do residential solar panels cost in Canada?

On top of being great quality panels, Canadian's residential solar panels come in at a great price too. Costing an average of \$2.60 per watt, expect to spend about \$15,600 for a typical 6 kW solar system using these panels. Keep in mind that this is just for the panels alone, no other additional costs.

What types of solar panels are available in Canada?

Much like the residential range, the most popular commercial panels from Canadian Solar are the Ku and HiKu series which are also available in both polycrystalline and monocrystalline varieties.

How efficient is Canadian Solar?

With an average efficiency rating of 16.6% across their product line, their

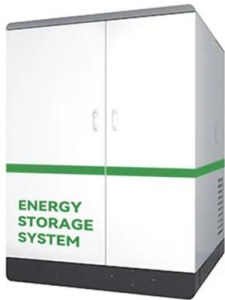

efficiency is lower than many of Panasonic or Sunpower's offerings. For homeowners who are seeking higher efficiencies, Canadian Solar's new HiDM panel offers a maximum module efficiency of 20.16%.

Does Canadian Solar make premium solar panels?

Canadian Solar doesn't produce panels with the N-type premium design for the time being. Prices are above average. The Canadian Solar company has manufacturing facilities all over the world, including two in Ontario, but also China, the United States, South Africa, and Indonesia.
