

Cesa energy storage north america

Overview

What does CESA stand for?

The California Energy Storage Alliance (CESA) is the definitive voice for energy storage in California. CESA is a 100++ member organization committed to advancing the role of energy storage in the electric power sector.

What does CESA do?

CESA's mission is to make energy storage a mainstream resource. We strive to advance a more affordable, efficient, reliable, safe and sustainable electric power system for all Californians. Stay updated with the latest developments in the energy storage industry.

Is energy storage North America part of Intersolar North America?

Energy Storage North America is part of Intersolar North America. Energy Storage North America was first combined with Intersolar North America in January 2022, in Long Beach, California.

How much energy storage capacity does California have?

CA Surpasses 10,000 MW in Energy Storage Capacity! The California Energy Commission (CEC) storage tracker has been updated to reflect California's recent milestone, surpassing 10,000 MW in energy storage capacity. California leads globally in energy storage, with a focus on bolstering grid reliability and leveraging renewable resources.

When is CESA's Market Development Forum 2024?

We are thrilled to announce that CESA's 15th Annual Market Development Forum (MDF) will take place on October 22-23, 2024, at the David Brower Center in Berkeley, CA. This exclusive, invite-only gathering is an exceptional opportunity for members and specially invited guests to engage with the forefront of the energy storage industry.

Is California a leader in energy storage?

California leads globally in energy storage, with a focus on bolstering grid reliability and leveraging renewable resources. From 2018 to 2024, battery storage capacity surged from 500 MW to over 10,300 MW, with an additional 3,800 MW projected by year-end and a forecasted need of 52,000 MW by 2045.
