Overview

Why we chose them: LONGi solar panels are not only the cheapest solar panels on this list at \$2.40 per watt, but they also hold their value quite well. LONGi Solar offers solid solar panel.

Why we chose them: Canadian Solar is a long-time admired brand from SolarReviews. As one of the top five solar manufacturers in the world, there's a good chance the installer you work with will recommend these panels. Most Canadian Solar models have a

Why we chose them: Trina Solar is a well-established solar panel brand offering cutting-edge technology and long-lasting value. The China-based manufacturer offers a 25-year product and performance warranty. Their performance warranty promises no less.

Why we chose them: JA Solar is a China-based solar manufacturer with several global offices, including one in San Jose, California. Just like other panels on this list, JA panels offer high efficiency ratings.

We wanted to provide a list of low-cost panels that are also good quality. So, our solar experts reviewed panels from reliable brands to find which ones provided the best value. You could find other solar panels cheaper than the ones we chose, but the quality would likely be low. After all, what's the point of buying solar.
