

Cheapest gel battery storage installation offer in Ireland

Overview

The Sustainable Energy Authority of Ireland (SEAI) currently offers up to €2,400 in grants for home energy storage installations. Combined with the 13.5% VAT reduction for solar+battery packages, this can cover 30-40% of total costs for eligible homes. Are home battery storage systems a good idea in Ireland?

In Ireland, demand for home battery storage systems — even without solar panels — is growing rapidly as homeowners look to reduce costs and gain energy independence.

Can battery storage help reduce energy bills in Ireland?

As energy prices remain unpredictable and solar adoption continues to grow, Irish homeowners are turning to battery storage to maximise their energy independence. By storing excess solar power for use at night or during peak-rate hours, battery systems are helping thousands of homes cut electricity bills even further.

How much does a solar battery cost in Ireland?

The cost of Kirra Energy's solar batteries in Ireland typically ranges from €1,500 to €4,000, depending on the battery's capacity and type. Factors such as capacity, warranty, and type of system influence the overall cost. Can Kirra Energy add a battery to my existing solar PV system?

Yes, we can add a battery to your existing solar PV system.

Is battery storage a smart investment?

Battery storage is a smart investment that increases your energy independence and maximises your solar savings. Through SEAI's Home Energy Grants, Irish homeowners can receive up to €1,800 towards the cost of installation when combined with a solar PV system.

How much does a battery storage system cost?

On average, the initial upfront cost of a battery storage system (including the installation) is around €5,000 to €15,000. Although this number can seem quite high, when you take into account the potential savings and the benefits, you'd be surprised at just how much money you will save especially when used in conjunction with solar panels.

Can I add a battery storage system to my home?

Adding a battery storage system to your home is easier than you might think. At WattCharger, it all begins with a free energy consultation, where we assess your energy usage, existing solar setup (if any), and off-peak opportunities. We then design a tailored storage solution that fits your household needs and future goals.
