

Chicago electric power systems services

Overview

Who is electric power systems?

At Electric Power Systems, we specialize in electrical acceptance testing, commissioning, and maintenance testing for a wide range of clients including Utility, Generation, Renewables, Industrial, Transit, Data Centers, and Commercial Facilities throughout North America.

Who is Chicago electric?

Founded in Southern California over 40 years ago, Chicago Electric has grown into an industry leader. Their ever-expanding catalog meets the needs of welders, automotive pros, contractors, metal workers, and hobbyists. It includes miter saws, plasma cutters, sanders, grinders, tile saws, generators, and much more.

Why should you choose Chicago electric?

Chicago Electric gives DIYers and professionals the freedom to take on big projects without breaking the bank. With their wide array of products, creators have the power to cut, join, shape, and build exactly what they envision. Chicago Electric's bold approach makes pro-grade tools accessible so anyone can achieve their goals.

Is Chicago electric a good brand?

Chicago Electric products include handy features like auto-darkening welding helmets to protect your eyes. With over 40 years of experience providing affordable tools, Chicago Electric is a proven brand you can trust to meet your DIY needs. I've been using Chicago Electric power tools for years now and they never disappoint!.

What equipment does Chicago electric sell?

It includes miter saws, plasma cutters, sanders, grinders, tile saws, generators, and much more. They also offer handy accessories like welding

helmets, torches, and welding carts. The key to Chicago Electric's success is rigorous in-house testing and sourcing premium materials.
