

Overview

Who is China Southern Power Grid co?

In accordance with a State Council rule on electric power system reform, China Southern Power Grid Co was officially launched and put into operation on Dec 29, 2002. It is a centrally-administered company, with the State-owned Assets Supervision and Administration Commission of the State Council (SASAC) performing duties as its investor.

What is a southern power grid?

Southern power grids extend approximately 2,000 kilometers from east to west, covering a variety of sources for power generation, including water, coal, nuclear, pumped storage, oil, gas and wind.

Will Guangdong power grid invest 4 billion yuan?

Guangdong Power Grid Corporation is expected to invest more than 4 billion yuan in Guangdong during the 14th Five-Year Plan period (2021-2025) to accelerate the construction of charging infrastructure, and put another 40,000 charging piles into operation, according to an official with the company.
