

Civilization 6 Solar Power Station

Overview

Does Civilization 6 have a power plant?

This building is only available in the vanilla version and in Civilization VI: Rise and Fall. In Civilization VI: Gathering Storm, it is replaced with three different types of Power Plant that players can choose from: Coal Power Plant, Oil Power Plant and Nuclear Power Plant.

What is a solar farm in Civilization VI Gathering Storm?

The Solar Farm is a standard tile improvement in Civilization VI: Gathering Storm. It is used to supply renewable Power to its city from flat terrain tiles. It cannot be built on Snow. +1 Production. +1 Gold. +2 Power. The Solar Farm is another, arguably more easily accessible way of supplying Power for your cities without burning fossil fuels.

How many power plants are there in Civilization VI Gathering Storm?

In Civilization VI: Gathering Storm, it is replaced with three different types of Power Plant that players can choose from: Coal Power Plant, Oil Power Plant and Nuclear Power Plant. With Ethiopia Pack: +3 Production toward wonders, buildings, and districts for each Industrial City-State with 6 Envoys.

What is power in Civilization VI Gathering Storm?

Back to Civilization VI Power is a new mechanic introduced in Civilization VI: Gathering Storm. It simulates electricity usage in modern cities. Power is needed for (almost) all late-game buildings and its production is one of the major contributors to CO₂ emissions and, consequently, natural disasters.

How much power does a city need?

A mid- to large-sized empire will need on average 5-8 Power per city when fully developed (assuming each has a Factory and two other Tier 3 buildings). That adds up to 50-80 Power for 10 cities.

Civilization 6 Solar Power Station
