

Companies switching to solar

**Efficient
Higher Revenue**

- Max. Efficiency 97.5%
- Max. PV Input Voltage 600V
- 150% Peak Output Power
- 2 MPP Trackers, 150% DC Input Oversizing
- Max. PV Input Current 16A, Compatible with High Power Modules

**Intelligent
Simple O&M**

- IP66 Protection Degree: support outdoor installation
- Smart I-V Curve Diagnosis Function: locate PV string faults accurately and automatically detect faults
- DC & AC Type II SPD: prevent lightning damage
- Battery Reverse Connection Protection

**Flexible
Abundant Configuration**

- Plug & Play, EPS Switching Under 10ms
- Compatible with Lead-acid and Lithium Batteries
- Max. 6 units Inverters Parallel
- AFCI Function (Optional): when an arc-fault is detected the inverter immediately stops operation

Overview

Who are the top corporate solar adopters of 2022?

Without further ado, these are the top 10 corporate solar adopters of 2022: 1. Meta Platforms Inc. Headquarters: Menlo Park, CA Meta is the trailblazing corporate supporter of the solar world. As of June 2022, the company had installed more than 3,588 MW — or roughly 3.59 GW — of solar power.

How has China shifted its state-run energy companies to renewables?

China has also shifted its biggest state-run energy companies toward renewables. In 2017, it formed China Energy Investment Corp. by merging two state-owned giants. The company has close to 40 gigawatts of renewable power generation capacity, according to BloombergNEF, more than any of the European and American majors.

How many commercial solar installations are there in 2022?

Commercial companies have installed roughly 19 GW of solar in the U.S. as of June 2022, but half of that was only installed since 2020. Much of this recent growth can be accredited to the rapid expansion of off-site corporate solar procurement, which now represents 55% of all commercial solar use.

How many solar and wind projects does Amazon own?

With more than 500 solar and wind projects globally, Amazon's portfolio is now big enough to power 7.2 million U.S. homes each year.
