

Consumer reports power banks

Overview

Do you need a power bank?

For this guide alone, I've spent more than 100 hours cumulatively researching and testing power banks. Most people can find use for a USB power bank (also called an external battery pack, backup battery, or portable charger) to keep phones and other devices charged while on the go.

What are the best wireless portable chargers & power banks?

For Qi-compatible devices, we also have a separate guide to the best wireless portable chargers and power banks. The best replacement for your original charger is the Nekteck 60W USB-C GaN Charger. It's cheaper and smaller but just as powerful and reliable.

What is a USB power bank?

Most people can find use for a USB power bank (also called an external battery pack, backup battery, or portable charger) to keep phones and other devices charged while on the go. Rather than tracking down a wall outlet, owning a USB power bank allows you to enjoy a conveniently portable (albeit limited) power supply.

Can power banks charge small appliances?

But some of the more powerful models can even charge small appliances. Consumer Reports tests power banks from popular manufacturers like Anker, Belkin, and RAVPower, measuring how fast they charge devices, and how quickly they can re-up their own battery's charge from the wall.

How do I choose a power bank?

Choosing a power bank can be a minefield. There are cheap ones, pricey ones, and sometimes you're paying simply for a name – but there's a lot more to finding the perfect portable charger than looking at price alone. Some other things you might consider include speed, both in charging your connected

device and recharging the bank when it empties.

How many Mah does a power bank charge?

In our tests, 10,000mAh of battery pack capacity translated to roughly 5,800mAh of device charge. 20,000mAh chargers delivered around 11,250mAh to a device, and 25,000mAh banks translated to about 16,200mAh of charge. That's an average efficiency rate of around 60 percent. Wireless
More manufacturers are making power banks with wireless charging.
