

Crown power fencing systems reviews

Overview

Who is crown power fencing system?

Crown Power Fencing System is a three decade old company in the field of manufacturing crown solar fencing and electric fencing equipments and accessories. A pioneer in India in the field of electric fencing we have a large & diverse group of satisfied customers all over the nation. Why Solor Power Fencing Systems?

.

Why is solar powered electric fencing better than conventional fencing?

Solar powered electric fencing is safer, more effective, easier to install and cheaper than conventional fencing. Electric Fence is an effective way to reducing losses caused by animals. Why Crown Power Fencing System?

.

What is solar powered electric fencing?

Solar powered electric fence systems are ideal for remote locations or where mains power is not readily accessible. Solar powered electric fencing is safer, more effective, easier to install and cheaper than conventional fencing. Electric Fence is an effective way to reducing losses caused by animals.

What are the benefits of solar fencing?

In addition to Agriculture, Security & High security applications also has increased exponentially due to the features and benefits of Solar fencing.

What type of battery will be used for the fence system?

Battery (Reputed make): 12V / 42 AH Rechargeable Maintenance free Lead Acid Battery will be used for storing the energy and to power the Fence system. Battery has more than 2 days of back up to meet any emergency

breakdown. Charger: Solar PV module (Crystalline) of 12V / 40Wp capacity will be used as a battery charger.

Can a high tensile wire reduce the voltage on a fence?

Plant foliage, or branches or fronds laying across the high tensile wire might not reduce the voltage on the meter when dry, but foliage becomes a conductor when wet and might easily short out your system completely reducing the fence voltage to almost zero when soaked from rain. The system will be a Non-Lethal Security system.
